

Jefferson County Adopt-a-County Road Program

Jefferson County is pleased to introduce its Adopt-a-County Road Program to maintain the natural beauty of our county and to decrease the cost of litter pickup. This program is modeled after the very successful Adopt-a-Highway Program that has been operating in Texas since 1985 and has grown into a national and international litter-prevention effort, saving taxpayers' dollars and keeping our right of way clean. The Adopt-a-Highway Program focuses on State maintained highways. The intent of the Jefferson County Adopt-a-County Road Program is to focus on Jefferson County roads.

Program Outline

1. An individual, family, community organization, youth organization, business, civic and non-profit organization, religious group, fraternity, sorority, or school may adopt a two-mile stretch of a county road.
2. The two-mile stretch of a county road is adopted for a minimum of two years.
3. The adopting entity agrees to pick up litter four times per year (more in some heavy traffic areas).
4. Adopt-a-County Road signs will be posted at each end of the adopted section with the adopting entity's name.
5. Adopt-a-County Road Program will provide volunteers with safety vests, litterbags, traffic control signs and safety information.
6. Application is made to the County Commissioner in the precinct where the adopted road is located. The commissioner of the precinct will determine if the road is eligible for adoption.
