Hurricane Harvey Disaster Assistance

Hurricane Harvey Emergency Supplemental Historic Preservation Fund Grant Program

In 2019, the National Park Service (NPS) awarded Texas a \$12,518,047 Emergency Supplemental Historic Preservation Fund grant for historic preservation projects. The emergency grant program will address damage inflicted by Hurricane Harvey. The Texas Historical Commission (THC) is managing the grant program for the State of Texas.

The Hurricanes Harvey, Irma, and Maria Emergency Supplemental Historic Preservation Fund (HIM ESHPF) grant program is competitive. The THC awarded grants to the qualified applicants listed below, and will coordinate with grantees and the NPS.

These emergency grants do not require matching monies. Certain project costs are paid as a reimbursement of eligible expenses incurred by the grantee. Projects funded under this program constitute "undertakings" as defined by Section 106 of the National Historic Preservation Act, as amended (54 U.S.C. 306108), and all projects receiving repair assistance must enter into a preservation agreement or preservation easement as part of accepting the grant award. Additionally, if a property is not listed in the [National Register of Historic Places](#) at the time of a grant award, a nomination must be produced, reviewed, and accepted by THC staff before final project costs are reimbursed.

Types of Preservation Grants

Examples of eligible activities for emergency grant funding include:

- Recovery and repair of historic properties (i.e., stabilization, restoration, or preservation);
- Survey and inventory of historic-age properties to determine National Register eligibility, degree of damage; and,
- Provide preparedness for future disasters, which can include planning and historic preservation educational activities.
